

TRANSITION COACHING

Did you know ...

- **Enjoyment and Performance are inextricably linked.** The level of enjoyment that you have while performing a particular activity is directly related to the level of your performance in that activity.
- **You are 3 times more likely to succeed** when you enjoy 75% or more of the tasks you perform in your job. When you enjoy a task, you tend to do it more, and get better at it - like a self-fulfilling prophecy.
- As you consider a role change or a career transition, **it's essential to know your natural behavioral tendencies** to increase your work satisfaction and your probability of success,

Pitcairn Partners offers **Transition Coaching** to that gives you a powerful means for moving your career forward.

We use a highly validated assessment complimented with 2 hours of consultation and coaching from which you will gain the following self-understanding:

- Knowing your greatest strengths – your highest priorities and values that drive your job enjoyment and satisfaction.
- Knowing your behavioral preferences and tendencies, as well as work environment preferences, and preparing for the predictable successes, challenges, and difficulties that you may encounter.
- Awareness of career options that you are most likely to enjoy (and be successful at).
